What is the lowest grade you will be satisfied with:

    A

Our agreed time-management strategy will be to:

    a. Work ahead of deadlines
    b. Divide workload evenly
    c. Communicate
    d. Effectively prioritize

Describe how you will handle your team leadership:

    There will not be a specified leader, we will break the work down into sections that we will each be responsible for.

How do you plan to handle the situation if someone does not meet expectations? Has everyone agreed to this strategy?:

    Discuss with the group to try and accommodate the situation, then escalate to the TA if this discussion does not work.

Brainstorm possible features/functionality for your software product and list a minimum of 10 features.

1. Create folders/files to store what users are working on
2. Edit the files stored in the application
3. Meeting Notes page
4. Calendar
5. Cross off completed tasks/goals
6. Roadmap with "not started" "in progress" "completed" tabs/cards
7. Subtasks to track progress towards completing a task
8. Projects page with name, progress, dates, priority and leader
9. Specify order of importance for tasks
10. Dashboard with projects to begin, in progress and done
11. Ability to invite other users to the group you create so they can also view the project
